To Whom This May Concern:

While at a Michigan Medical Group Managers' Association conference I had the opportunity to meet with the representatives from our professional liability insurance and found them to be extremely helpful in more aspects of our office insurance needs. Everyone followed up immediately and thoroughly with any questions I had and still may have. Each rep that I met at the conference was friendly, helpful and very knowledgeable.

In fact, I have switched all of our corporate insurance needs to this company and am finding the customer service to be fantastic. I love the relationship that I have with each person in the Fincor offices. I have especially gotten great cooperation from my account executive, Amy Guilford. As always, I look forward to seeing them at my next MMGMA conference.

I would highly recommend this company to anyone for their superior level of professionalism.

Sincerely,

**Leighanne Rappaport
