To Whom It May Concern:

I am pleased to express my appreciation in working with Janice Homola and the loss prevention program at FinCor Solutions. Janice has worked with us on our health and safety evaluation and has brought valuable information to our company. Her ideas and guidance show that she is extremely knowledgeable when it comes to disability management.

The customer service we have received has exceeded my expectations. Not only is Janice extremely responsive and quick when it comes to my inquiries, but she makes sure that I always have a pleasant experience when working with her. The e-consultant Web page is another helpful tool that FinCor Solutions provides to make information easy and accessible. This company goes to great lengths to ensure their customers have the highest quality of service.

I would willingly recommend FinCor Solutions to any health facility for they have proven their expertise and superiority of customer service. If there is one thing I admire about this company, it is that they strive to make their customers their highest priority.

Sincerely,

2400 Portage Street
Kalamazoo,
Michigan 49001
