Lansing, MI 48917

To Whom It May Concern:

I would like to express my gratitude to Senior Consultant of Loss Prevention Services, Sandra Allen. I believe that Sandy and I have built a relationship in the past few years that is based on our common goal of improving the safety of this hospital environment and its employees.

Sandy has been an encourager and a willing resource whenever I have a question. She has always been prompt and thorough in her replies and most recently, she was very supportive as we went through a random MIOSHA survey. I was pleased to be aware of the information that MIOSHA was asking about because Sandy had recently brought it to my attention as something we needed to do.

Sandy's explanation of job hazard analysis and her involvement (as well as other consultants) in the LVC sessions presented earlier this year was helpful in starting our leaders thinking more about looking at job tasks proactively in their departments.

I would recommend Sandy and FinCor Solutions to other facilities because of their knowledge, exceptional customer service, and the ability they have to encourage their customers to keep striving for improvement. Thank you.

Sincerely,

Melody Harmon
