Dear Janice Homala,

I am writing to let you know how much we appreciate the Webinars that you have shared with our supervisors. It was wonderful to have all the supervisors in one room to go over information together and then follow-up with a discussion pertaining to the information. When living in a smaller community, it is difficult to send a large group of supervisors to learn new materials regarding safety.

With Staff Education/Corporate Compliance it is always challenging to keep up with new safety material. By having the supervisors getting the information first hand on ergonomics it makes us all more aware of safety for the staff and residents at our facility.

Again, I want to thank you for passing on great information to our facility.

Thank you,

Mary Tolvstad, RN
