To Whom It May Concern:

I welcome the opportunity to put in writing my experience with FinCor. As a new Risk Manager, I have been delighted with the service I have received. Without exception, any FinCor representative I have dealt with has been warm, friendly, professional, and informative. They have patiently explained everything I needed to know both over the phone and in person. If needed, they do the research and call or email back promptly. I would highly recommend FinCor to any hospital. In addition to excellent personnel, the resources they provide are outstanding. The resources alone save many hours of research for the risk manager. In a world where everyone seems to do the bare minimum, FinCor goes out of the way to make things easier for their clients and works hard to help us succeed.

Sincerely,

Merri Terborgh, LMSW, CCM
Director, Quality/Care/Risk Management
