Dear Janice:

Thank you for your recent presentation **From Better to Better Yet: Improving Performance in Lifting and Transferring Patients**. The information was well researched and informative. It opened up new possibilities and increased my awareness on new methods to improve lifting and transferring patients, for both staff and patient safety. The handouts were beneficial. I appreciate that they were customized to the participant's needs.

I have viewed many Fincor presentations and would gladly recommend Fincor for its valuable and reliable information time after time.

Sincerely,

Michelle Hammond, RN
